

PAVEL VOLOSHYN

FRONTEND REACT DEVELOPER

SUMMARY

I am a junior front-end developer. I focus on HTML, CSS, SASS, JS, **React**. Development, practice are very important to me. Ready to spend a lot of time learning.

I will be glad to learn new things from colleagues, I prefer to work with purposeful people. I am very goal oriented. Usually I perceive the goals of the company as my personal goals.

SOFT SKILLS

- I can write a project from scratch,
- I know git commands, I can work with different branches, pull requests and conflicts,
- I understand how the work process is built in the team,
- I am a very communicative person
- I am a multi-tasker and I know how to prioritize
- I take responsibility for my decisions
- I know how to find compromises in any situation, I respect a different point of view, but at the same time I can set aside my opinion
- I understand how to transform business tasks into development tasks
- I take criticism well

WORK EXPERIENCE

- **"Readable games" - June 2023 - Now** - Game development, produces games - novels for the US market, work with Unity and Nani [AppStore](#) / [Google Play](#).
